## DISASTER RISK MANAGEMENT IN THE HERITAGE SECTOR – FROM POLICY TO PRACTICE

Effective disaster preparedness is key to protecting heritage in a time of increasing climate volatility. Day 2 will focus on how South Africa's heritage institutions, local governments, and communities are integrating heritage protection into disaster risk reduction frameworks. Presentations will explore emergency planning, legislative gaps, inter-agency coordination, and recovery strategies following recent floods, fires, and other natural disasters. The day offers a platform for strengthening policy, planning, and practical responses.

**Date: 17th September 2025**

**Platform: Microsoft Teams**

**Time: 09:30 am – 13:00 pm**

**Programme Director: Mr Robin George**
