## **TERMS OF REFERENCE**

### **RFQ SAHRA 51/2026**

**The South African Heritage Resources Agency (SAHRA) hereby invites suitably qualified service providers to submit proposals to objectively and effectively verify the cultural significance of the Black Rock Koppie Mine, near Santoy, Northern Cape Province**

## TERMS OF REFERENCE

### 1. PURPOSE

- 1.1. The South African Heritage Resources Agency (SAHRA) hereby invites suitably qualified service providers to submit proposals to objectively and effectively verify the cultural significance of the Black Rock Mine, near Santoy, Northern Cape Province.

### 2. BACKGROUND

- 2.1. SAHRA is a statutory organisation established in terms of the National Heritage Resources Act, no 25 of 1999 (NHRA). Part of this mandate is to identify places of national significance and to investigate the desirability to declare it a national heritage site (Section 27 (1) of the NHRA). SAHRA may also in terms of Section 29 provisionally protect a place for a maximum of two years to investigate the protection of the place in terms of the NHRA.
- 2.2. In 2009, SAHRA received an application from Asamang Ltd regarding a revised Environmental Management Programme (EMPR) for a Mining Right on portion 1, 2 and 3 of the farm Nchwaning no. 267, remainder and portion 1 of the farm Belgravia no. 264, remainder and portion 1 of the farm Santoy no. 230 and the remainder and portion 1 of the farm Gloria no.266 situated in the Magisterial District of Kuruman, Northern Cape Region (SAHRIS Case ID 807 <https://sahris.sahra.org.za/cases/nchwaning-emp-203>).
- 2.3. Küseletal (2009)'s Heritage Impact Assessment (HIA) ([https://sahris.sahra.org.za/sites/default/files/heritagereports/HIA\\_Black\\_Rock\\_Kgalagadi\\_Kusel\\_U\\_Sep09.pdf](https://sahris.sahra.org.za/sites/default/files/heritagereports/HIA_Black_Rock_Kgalagadi_Kusel_U_Sep09.pdf)) found that the original Black Rock Mine represented the early history of manganese mining in South Africa with mines of world renown for unique minerals which are found nowhere else. The HIA provided recommendations that can be found in the linked document.
- 2.4. The SAHRA Review comment ([https://sahris.sahra.org.za/sites/default/files/casedecisions/ARC\\_Black\\_Rock.pdf](https://sahris.sahra.org.za/sites/default/files/casedecisions/ARC_Black_Rock.pdf)) issued on the 29 April 2010 on the HIA stated the following:
  - Given the historical significance of the site, the original Black Rock Mine, it should not be disturbed by the development and the mining. An application may be presented to apply for declaring the site a National Heritage Site and the boundaries of this explored during the declaration process; and

- No mining or development must affect the original Black Rock Mine.
- 2.5. On the 23/05/2019 a Heritage Management Plan (HMP) by Van Vollenhoven was submitted. The HMP provided a statement of significance of the original Black Rock Mine, noting its potential Grade 1 National Heritage Site status and once again recommending that the site be nominated as such. However, after an Audit report was submitted to SAHRA on the 27/01/2020, SAHRA issued a comment recommending that the applicant follow the nomination procedure for the Black Rock Mine as a Grade 1 Heritage Site (<https://sahris.sahra.org.za/node/533940>).
- 2.6. On the 25/08/2021, an HIA (Van Vollenhoven et al, 2021) ([https://sahris.sahra.org.za/sites/default/files/heritagereports/Report%2020131V%20HIA%20Black%20Rock%20Koppie\\_0.pdf](https://sahris.sahra.org.za/sites/default/files/heritagereports/Report%2020131V%20HIA%20Black%20Rock%20Koppie_0.pdf)) was submitted that argues that the Black Rock Mine NOT be considered a Grade 1 National Heritage Site as older manganese mines are located in Beeshoek and Gloucester, Northern Cape Province. An extract from the HIA “It has previously been indicated that the koppie should be declared a Grade I heritage site. In order to comply with this, and since mining was not planned at the koppie at that point in time, Archaeos was appointed to motivate the declaration and draw up a cultural heritage management plan. Although the management plan was submitted the actual application was never submitted as the mine realized that it became a viable economic option to rather mine the koppie. This report deals with the motivation to rather mine and not declare the site, and therefore also serves as a Heritage Impact Assessment. It however also deals with the possible memorialization of the site in order not to lose the latent heritage significance thereof.”
- 2.7. As the results of the conducted HIAs differ and have not based their recommended grading on the same criteria, the SAHRA Grading and Declaration Review Committee (GDRC) approved the recommendation to Provisionally Protect Black Rock Koppie Mine in terms of section 29 of the NHRA to investigate the significance of the site.
- 2.8. SAHRA is, therefore, looking to appoint an expert in Mining Heritage/Built Environment to assist in objectively assessing the significance of the Black Rock Koppie Mine in terms of section 3(3) and section 7 of the NHRA.
